

Survey Introduction:

You may be aware that the Center for Application and Innovation Research in Education (**CAIRE**), located at Towson University, is currently evaluating the “utilization” of the products and services provided through Project #39/25, “*Teacher Induction Academies*”. At the January 21st Quarterly Meeting of LEA Induction Coordinators, we will be asking for your feedback with paper copies of the survey. If you are able to complete the following survey electronically and email it back to me in advance that would be helpful as well. Thank you! Heather
