Acknowledgements to the Task Force Members

The Maryland State Board of Education and the State Superintendent of Schools would like to thank the members of the Maryland Braille Task Force for English/Language Arts for their outstanding development and preparation of the Maryland Common Core State Curriculum Frameworks for Braille: English/Language Arts.

Susan Adams, Teacher of the Blind and Visually Impaired and Orientation and Mobility Specialist, Montgomery County Public Schools

Dr. Michael J. Bina, President, The Maryland School for the Blind

Eldre Boggs, Resource Teacher for Blind and Visually Impaired, Anne Arundel County Public Schools

Dr. Lea Ann Christenson, English/Language Arts Specialist, Maryland State Department of Education, Division of Instruction

Melinda Demaris, Teacher of the Blind and Visually Impaired, Orientation and Mobility Specialist, Wicomico County Public Schools

Karen Ehrhardt Lloyd, Program Head, Vision Services, Howard County Public Schools

Heather Johnson, Teacher, The Maryland School for the Blind

Dr. Allison Layland, Associate Director, Mid-South Regional Resource Center, University of Kentucky

Jacqueline Otwell, Teacher of the Blind and Visually Impaired, Carroll County Public Schools

Susan Polansky, Maryland Parents of Blind Children

Melissa Riccobono, President, Maryland Chapter of the National Federation of the Blind

Jill Richmond, Parent, Maryland Parents of Blind Children, National Federation of the Blind

Carol Seckington, Assistant Principal, The Maryland School for the Blind

Sally Shreck, Certified Braille Transcriber, Instructional Resource Center for Students with Visual Impairments, The Maryland School for the Blind

Linda Starner, Teacher of the Blind and Visually Impaired, Orientation and Mobility Specialist, Baltimore County Public Schools

Lisa Wright, Statewide Vision/Low Incidence Specialist, Maryland State Department of Education, Division of Special Education/Early Intervention Services and The Maryland School for the Blind.

Acknowledgements to the Reviewers of the Standards

Dr. Karen Blankenship, Professor, Vanderbilt University

Dr. Cay Holbrook, Professor, University of British Columbia

Dr. Ruby Ryles, Assistant Professor, Professional Development and Research Institute on Blindness,
Louisiana Tech University

Acknowledgements to the UEB Transition Committee

Beverly Benke, Teacher of the Visually Impaired, Harford County Public Schools

Dr. Michael Bina, President, The Maryland School for the Blind

Eldre Boggs, Resource Teacher for the Blind and Visually Impaired, Anne Arundel County Public Schools

Carol Bogue, Director of Education, The Maryland School for the Blind

Deborah Brown, The National Federation of the Blind

Joyce Burwell, Director, The Maryland Instructional Resource Center

Susan Flaherty, Teacher of the Visually Impaired, Worcester County Public Schools

Carol Gamble, Braille Teacher, The Maryland School for the Blind

Dr. Joshua Irzyk, Statewide Vision/Low Incidence Specialist, Maryland State Department of Education
and The Maryland School for the Blind

Joann Kucic, American Council of the Blind

Nancy Lentz, Teacher of the Visually Impaired, Prince George's County Public Schools

Karen Ehrhardt Lloyd, Program Head for Vision Services, Howard County Public Schools

Jacqueline Otwell, Educational Consultant, The Maryland School for the Blind

Arathi Samuel, Teacher of the Visually Impaired, Baltimore City Public Schools

Sally Shreck, Braille Specialist, Maryland Instructional Resource Center

Linda Starner, Vision Program Team Leader, Baltimore County Public Schools

Cheryl Walcutt, Technical Braillist, Anne Arundel County Public Schools

Introduction

Literacy, a basic requirement for full participation in social and economic life, includes the ability to read, write, and compute. Students who are blind or visually impaired must have the same access as sighted students to all standards, curriculum, and instruction in order to achieve essential literacy levels, attain high academic expectations, and become productive citizens. During the 2010 Maryland Legislative Session, House Bill 413 and Senate Bill 230 were passed “to establish standards for mastery of braille for use in instruction in certain subjects for blind or visually impaired students” (Annotated Code of Maryland, Section §8-408, 2010). To achieve successful implementation of these standards for mastery of braille, House Bill 413 and Senate Bill 230 both require the Maryland State Board and the Professional Standards and Teacher Education Board to “review and, as appropriate, modify certain certification and recertification requirements for certain teachers; and generally relating to the use of braille for instruction of blind or visually impaired students” (Annotated Code of Maryland, Section §8-408, 2010). As part of this implementation, the Maryland State Department of Education (MSDE) formed the Maryland Braille Task Force to develop standards for the mastery and application of braille skills needed at each grade/course level.

Members of the Maryland Braille Task Force represent a broad range of stakeholder groups, including:

- parents of students who are blind or visually impaired;
- classroom teachers and administrators from the Maryland School for the Blind;
- teachers of the blind and visually impaired;
- braille transcribers;

- orientation and mobility (O&M) specialists;
- the Maryland Chapter of the National Federation of the Blind;
- the Maryland's Parents of Blind Children; and
- the Maryland State Department of Education, the Division of Instruction and the Division of Special Education.

The process used by the Task Force was just as important as the task of creating the *Maryland Common Core State Curriculum Frameworks for Braille: English/Language Arts*. Decisions were made using consensus building, and meetings were facilitated by a trained facilitator from the Mid-South Regional Resource Center to ensure fidelity to a process based on respectful discussions, effective resolution of any conflicts, and completion of the task.

The Task Force met seven times during the 2011-12 school year to develop braille standards for English/Language Arts. The members reviewed the Maryland Common Core State Curriculum Frameworks, similar braille standards from other states, curriculum checklists, and other resources. Standards for grades Pre-K through 5 were completed first, followed by middle school grades and high school courses.

The Task Force members shared common beliefs, which guided the development of this document:

- ***The document should promote strong skills and high, measurable, academic expectations by establishing grade level standards for students who read braille in grades Pre-K through 12.***
- ***The document must reflect the same expectations of meeting grade level standards for braille readers as for their sighted peers.***
- ***The document needs to be useful and relevant to its intended audience, have a strong connection to general education, and be a model of accessibility.***

- ***High expectations in the use of braille and tactile graphics to access core curriculum content will lead to success on future state assessments in English/Language Arts, as well as the current Maryland School Assessment, High School Assessment, Modified High School Assessment, and Alternate Maryland School Assessment.***
- ***Students who read braille need early and frequent exposure to contracted braille in order to become proficient readers and writers.***
- ***Students who read braille need early and frequent exposure to a variety of tactile graphics in order to become proficient accessing all graphical content.***
- ***Students who read braille should be encouraged to demonstrate proficient braille reading skills at an early age to become fluent readers.***
- ***High expectations in the use of braille tactile graphics to access core curriculum content will help ensure that students who are blind and visually impaired are college or career ready.***

The intent of the *Maryland Common Core State Curriculum Frameworks for Braille:*

English/Language Arts is to identify the specific braille skills needed to access the general education curriculum, not to dilute in any way the rigor of the *Maryland Common Core State Curriculum Frameworks*. Thus, this document embeds the braille and tactile graphics necessary to: (1) access the *Maryland Common Core State Curriculum Frameworks* at each specific grade/course level for ease of use; (2) encourage vertical and horizontal discussions regarding standards, curriculum, and instruction; and (3) provide guidance on grade-level expectations for students who read braille to the intended audience: teachers of the blind and visually impaired, general and special education teachers, related vision service providers (for example, O&M specialists, braille transcribers, paraprofessionals), and school-, district-, and state-level administrators, and parents.

This document is formatted to ensure accessibility and relevance for the intended audience. Accessibility is incorporated by using style sheets, labeled and separate tables, and larger and clearer fonts. Braille skills added to the standards are underlined so they are visible to sighted users, auditorily distinct for users who are blind using screen reading software, or tactually distinct for users who are blind using braille devices. The document also includes several appendices: charts of braille and formatting/tactile graphics for English/Language Arts by grade levels and courses using simulated braille, a list of acronyms and definitions, and a list of resources and materials to assist in implementation. The document is available in both PDF and Microsoft Word formats. In order to view the simulated braille in the Word format, you must download free braille fonts and install them in your fonts' folder. Fonts can be downloaded at:

<http://durburysystems.com/product2.asp?product=The%20Braille%20TrueType%20Fonts&level=free&action=pur>

In addition to creating the *Maryland Common Core State Curriculum Frameworks for Braille: English Language Arts*, the Task Force members reviewed current Maryland certification and re-certification requirements for teachers of students who are blind and visually impaired, Moreover, the members suggested revisions to the MSDE based upon current higher education course offerings, best practices in the field, and the work of the Task Force.

To conclude, the Task Force members recommend that this document be disseminated to the intended audience of stakeholders noted above for awareness, professional development, and implementation. The *Maryland Common Core State Curriculum Frameworks for Braille: English/Language Arts* provides the resources to help ensure that students who are blind or visually impaired can achieve equal access and high expectations with the same rigorous content as all students.

Maryland's College and Career Ready Standards for Unified English Braille

How to Read the Maryland's College and Career Ready Standards for Unified English Braille: English/Language Arts

In June 2010, the Maryland State Board of Education adopted the Common Core State Standards. During the summer and fall of 2010, Maryland educators examined the Common Core State Standards and the existing State Curriculum to determine which skills and content matched the Common Core State Standards. Based on this analysis, development of the new curriculum began. These Frameworks are the result of a yearlong effort by Maryland educators to unpack the Common Core State Standards and identify the essential skills and knowledge that a student would need in order to master the grade specific standards. Since the Common Core State Standards did not include Pre-K, Maryland educators created standards and developed the essential skills and knowledge to serve these students. The Frameworks are not intended to convey the order in which the standards should be taught nor the length of time to devote to a unit of study.

Key:

Black print – Common Core State Standards

Red print – The Essential Skills and Knowledge identified by Maryland Educators. These statements are intended to help teachers develop common understandings and valuable insights into what a student must know and be able to do to demonstrate proficiency with the standard.

Purple print – The Common Core State Standard was judged as an excellent match with the existing State Curriculum during the gap analysis, such as SC, 6 (read “State Curriculum, Grade 6)

Underlining – word/phrases/sentences that pertain to braille reading, writing, and tactile graphics.

~~Strikethroughs~~ – word/phrases that are visual in nature and not applicable to a student who reads braille.

The Maryland Common Core State Curriculum Frameworks in English Language Arts integrate standards from different strands. Throughout the Maryland Essential Skills and Knowledge, you will see references such as See CCSS 6 SL4 (read “See Common Core State Standards, Grade 6, Speaking & Listening, Standard 4”). The following list shows the abbreviations used when referencing standards from the ELA Common Core State Standards:

RL – Reading Literature

RI – Reading Informational Text

RF – Reading Foundational Skills

W - Writing

SL – Speaking and Listening

L – Language

The Maryland Common Core State Curriculum Frameworks also integrate standards from the Maryland School Library Media Curriculum and the Maryland Technology Literacy Standards. These standards are indicated by the abbreviations MD SLM 6-8 (read “Maryland School Library Media, grades 6-8, Standard, Indicator, Objective”) and TL (read “Technology Literacy Standards” followed by Standard, Indicator, Objective).

READING FOUNDATIONAL SKILLS

PRE-K

Cluster: Print Concepts		
PK students:		
RF1 Demonstrate understanding of basic features of print <u>braille</u> .		
RF1.a Demonstrate an awareness that words are read from left to right, top to bottom and page by page.		
Essential Skills and Knowledge		
<ul style="list-style-type: none">• With modeling and support,<ul style="list-style-type: none">◦ demonstrate interest/attention to printbraille◦ demonstrate proper orientation of book◦ demonstrate proper handling of a book◦ recognize that a book has a front and back cover◦ follow words from left to right <u>using all fingers on both hands (and return sweep with left hand to locate the next line while the right hand completes tracking the current line)</u>, top to bottom, front to back and page by page		

READING FOUNDATIONAL SKILLS

PK students:		
RF1.b Recognize that spoken words can be written and read.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ engage in a variety of literacy experiences (e.g. shared reading and writing, Interactive Read Alouds, language experience stories, etc.) using a wide selection of texts (e.g. a variety of structures and/or genres representing a wide variety of cultures) ◦ understand that speech can be written and read ◦ understand that print <u>braille</u> conveys meaning 		
RF1.c Understand that words are separated by spaces in print <u>braille</u> .		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, engage in a variety of literacy experiences which focus on spaces in print <u>braille</u> (e.g. shared reading and writing, Interactive Read Alouds, language experience stories, etc.) using a wide selection of texts (e.g. a variety of structures and/or genres representing a wide variety of cultures). 		

READING FOUNDATIONAL SKILLS

<p>PK students:</p>		
<p>RF1.d Recognize and name some uppercase and lowercase letters of the alphabet <u>in braille, with uppercase letters indicated by a capital sign preceding the letter.</u></p>		
<p>Essential Skills and Knowledge</p>		
<ul style="list-style-type: none">• With modeling and support,<ul style="list-style-type: none">◦ apply <u>visual tactile</u> discrimination of shapes, <u>dot number(s)</u>, and orientation◦ differentiate between <u>tactile graphics of pictures</u>, <u>tactile shapes</u>, <u>braille</u> letters, and <u>literary braille</u> numerals◦ attend to print <u>braille</u> in order to discriminate between letters and numbers in order to recognize that letters and numbers represent different concepts◦ attend to print <u>braille</u> in order to learn letter names		

READING FOUNDATIONAL SKILLS

Cluster: Phonological Awareness		
PK students:		
RF2 Demonstrate understanding of spoken words and sounds (phonemes).		
RF2.a Recognize rhyming words in spoken language.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify and differentiate environmental sounds ◦ begin to demonstrate auditory discrimination of rimes/same ending sounds ◦ identify rhyme in poems and stories read aloud 		
RF2.b Identify and isolate individual words in a spoken sentence.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, identify and differentiate individual words in spoken language 		
RF2.c Count, pronounce, blend, and segment syllables in spoken words.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify and isolate spoken words in a sentence ◦ identify whether isolated sounds are same or different ◦ orally blend word parts (onsets and rimes) 		

READING FOUNDATIONAL SKILLS

PK students:		
RF2d. Blend and segment onsets and rimes of single-syllable spoken words.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify initial and final sounds in a word ◦ categorize words as same or different by initial or final sound ◦ orally blend word parts (e.g. onsets and rimes) 		
RF2.e Isolate and pronounce the initial sound in spoken words.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ recognize similarities and differences in the initial sound of words ◦ begin to demonstrate understanding the concept of first, middle and last 		
RF2.f Orally blend and segment individual phonemes in two-to-three phoneme words.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ orally blend individual phonemes to form words (e.g. /c/ /a/ /t/ = cat) ◦ orally segment a word into individual phonemes (e.g. cat= /c/ /a/ /t/) 		

READING FOUNDATIONAL SKILLS

Cluster: Phonics and Word Recognition		
PK students:		
RF3 Know and apply grade-level phonics and word analysis skills in decoding words.		
RF3.a Recognize that words are made up of letters and their sounds.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ engage in language activities focusing on the alphabetic principle ◦ begin to associate names of <u>braille</u> letters with their shapes and dot numbers ◦ begin to notice the beginning letter in familiar words ◦ begin to associate names of letters with their sounds 		
RF3.b Demonstrate basic knowledge of one-to-one letter sound correspondences by producing the most frequent sound for some consonants.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, begin to match the name and sound of some upper and lower case consonant letters in the alphabet. 		

READING FOUNDATIONAL SKILLS

PK students:		
RF3.c Recognize name in print <u>braille</u> as well as some <u>school and classroom</u> environmental print labels <u>in braille</u> (symbols/words).		
Essential Skills and Knowledge		
<ul style="list-style-type: none">• With modeling and support,<ul style="list-style-type: none">◦ recognize and read name in isolation with increased automaticity◦ identify and name the letters in first name <u>written in contracted braille</u>◦ recognize a few words in <u>school and classroom</u> environmental <u>labeled in braille</u> print, i.e., <u>desk, shelf, girl's bathroom, room numbers</u>		

READING FOUNDATIONAL SKILLS

Cluster: Fluency		
PK students:		
<p>RF4 Engage with a variety of texts <u>in braille</u> (e.g., a variety of structures and/or genres) with purpose and understanding.</p>		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ engage in a variety of literacy experiences (e.g., shared reading and writing, Interactive Read Alouds, language experience stories, etc.) using a wide selection of texts (e.g. a variety of structures and/or genres representing a wide variety of cultures) ◦ use <u>tactile graphics of illustrations, real objects, sounds, and verbal descriptions</u> to support understanding of the text ◦ recite nursery rhymes, poems, and finger plays from a wide variety of genres with expression ◦ engage in imitative reading with prosody ◦ use strategies to prepare for reading (before, during and after reading) 		

READING FOUNDATIONAL SKILLS

Kindergarten, 1 and 2

Cluster: Print Concepts		
Kindergartners:	Grade 1 students:	Grade 2 students:
RF1 Demonstrate understanding of the organization and basic features of <u>print</u> <u>braille</u> . (SC, K)	RF1 Demonstrate understanding of the organization and basic features of <u>print</u> <u>braille</u> . (SC, 1)	Ends at grade 1
RF1.a Follow words from left to right, top to bottom, and page by page. <u>using all fingers on both hands</u>	RF1.a Recognize the distinguishing features of a sentence (e.g., first word, capitalization, ending punctuation). (SC, 1)	
Essential Skills and Knowledge	Essential Skills and Knowledge	
<ul style="list-style-type: none"> • With prompting and support, <ul style="list-style-type: none"> ◦ demonstrates interest/attention to <u>print</u> <u>braille</u> ◦ follow words from left to right, top to bottom, front to back and page by page <u>using all fingers on both hands (and return sweep with left hand to locate the next line while the right hand completes tracking the current line)</u> ◦ make return sweep to next line of text <u>with left hand to locate the next line while the right hand completes tracking the current line</u> 	<ul style="list-style-type: none"> • Follow words from left to right, top to bottom, and page by page <u>using all fingers on both hands (and return sweep with left hand to locate the next line while the right hand completes tracking the current line)</u>. • Recognize that spoken words are represented in written language by specific sequences of <u>braille</u> letters <u>or braille contractions</u>. • Understand that <u>most</u> words are separated by spaces in <u>print</u> <u>braille</u>. • Identify the components of a sentence (e.g., words, punctuation, etc.). • <u>Use the capital sign at the beginning of a sentence and period, question mark or exclamation point at the end of a sentence.</u>

LANGUAGE

PRE-K

Cluster: Conventions of Standard English

L1 CCR Anchor Standard

Demonstrate command of the conventions of Standard English grammar and usage when writing or speaking.

PK students:

L1 Demonstrate beginning understanding of the conventions of standard English grammar and usage when engaged in literacy activities (e.g. Interactive Read Alouds, shared reading, shared writing, developmentally appropriate writing, oral language activities, etc.).

L1.a ~~Print~~ Braille upper and lowercase letters in first name, using capital sign as appropriate.

Essential Skills and Knowledge

- With modeling and support,
 - explicitly and sequentially develop and strengthen fine motor skills, including finger isolation and strength which support letter formation in braille using a variety of activities
 - recognize that names begin with a braille capital letter sign
 - recognize that space is used to separate words
 - correctly form upper and lowercase letters in first name in braille using the capital sign as appropriate
 - practice writing name on various sizes and styles of braille paper, and other tactile mediums in a developmentally appropriate manner

LANGUAGE

PK students:		
L1.b Use frequently occurring nouns and verbs.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ demonstrate the use of frequently occurring nouns and verbs when speaking ◦ demonstrate subject/verb agreement when speaking ◦ demonstrate correct verb tense when speaking ◦ demonstrate noun/pronoun agreement when speaking 		

L1 CCR Anchor Standard		
Demonstrate command of the conventions of Standard English grammar and usage when writing or speaking.		
PK students:		
L1.c Develop understanding of singular and plural nouns (e.g., <i>dog</i> means one dog; <i>dogs</i> means more than one dog).		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ understand concept of singular and plural (e.g. multiple objects) ◦ apply understanding of singular and plural nouns when speaking 		

LANGUAGE

PK students:		
L1.d Understand and begin to use question words (e.g., interrogatives such as who, what, where, when, why, how).		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify and define question words in texts presented in a variety of formats ◦ practice and apply the use of question words when speaking ◦ participate in oral language activities that foster questioning skills 		
L1.e Gain exposure to the most frequently occurring prepositions (e.g., to, from, in, out, on, off, for, of, by, with).		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, demonstrate understanding of prepositions by using prepositions correctly when speaking. 		
L1.f Produce complete sentences in shared language activities.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ use standard English in language activities ◦ use complete sentences in conversations, in response to questions and during language experience activities 		

LANGUAGE

L2 CCR Anchor Standard

Demonstrate command of the conventions of standard English capitalization, punctuation, and spelling when writing.

PK students:

L2 Gain exposure to conventions of standard English capitalization, punctuation, and spelling during shared reading and writing experiences.

L2.a Recognize that their name begins with a capital letter, indicated by a braille capital sign.

Essential Skills and Knowledge

- With modeling and support,
 - recognize that a space is used to separate words in braille
 - recognize the difference between upper and lower case letters
 - recognize names (proper nouns) begin with a capital letter, indicated by a braille capital sign.

L2.b Demonstrate awareness of name and function of end punctuation (e.g., period, question mark and exclamation point)

Essential Skills and Knowledge

- With direct instruction and modeling, identify end punctuation presented in a variety of texts.
- With modeling and support, practice skill in developmentally appropriate writing.

LANGUAGE

PK students:		
<p>L2.c Use letter-like shapes, symbols, letters, and words to convey meaning.</p>		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ demonstrate an awareness of the relationship between spoken words and written text ◦ understand the use of space between words in text presented in a variety of formats ◦ practice making letter-like shapes, symbols, letters, and words ◦ practice and apply use of space between words correctly in developmentally appropriate writing 		
<p>L2.d Develop fine motor skills necessary to control and sustain <u>braille handwriting</u>.</p>		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ write with dominant <u>both hands and using appropriate finger placement on keys of a braillewriter</u> ◦ hold <u>crayon/pencil</u> efficiently during writing activities <u>for fine motor development for marking answers, future signature/slate and stylus writing</u> ◦ write first name with <u>correctly conventionally</u> formed <u>braille</u> letters 		

LANGUAGE

Cluster: Knowledge of Language		
L3 CCR Anchor Standard		
Apply knowledge of language to understand how language functions in different contexts, to make effective choices for meaning or style, and to comprehend more fully when reading or listening.		
PK students:		
L3 (Begins in grade 2.)		

Cluster: Vocabulary Acquisition and Use		
L4 CCR Anchor Standard		
Determine or clarify the meaning of unknown and multiple-meaning words and phrases by using context clues, analyzing meaningful word parts, and consulting general and specialized reference materials, as appropriate.		
PK students:		
L4 Determine or clarify the meaning of unknown words and phrases based on <i>pre-kindergarten reading and content</i>.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ access prior knowledge and experiences to determine the meaning of words and phrases ◦ discuss words and phrases and their meanings as they are encountered in texts, instruction and conversations 		

LANGUAGE

L5 CCR Anchor Standard		
Demonstrate understanding of figurative language, word relationships, and nuances in word meanings.		
PK students:		
L5 With modeling and support from adults, explore word relationships and nuances in word meanings.		
L5.a With modeling and support, sort common objects into categories (e.g., shapes, foods) to gain a sense of the concepts the categories represent.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify and sort <u>real objects, tactile representations of objects, or orally named and/or pictures</u> of common words into basic categories ◦ discuss commonalities and differences among groups of words 		
L5.b With modeling and support, demonstrate understanding of frequently occurring verbs and adjectives by relating them to their opposites (antonyms).		
.Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, discuss the meaning of frequently occurring verbs and adjectives and their opposites. 		

LANGUAGE

PK students:		
L5.c Identify real-life connections between words and their use (e.g., note objects in classroom that are <i>small</i>).		
Essential Skills and Knowledge		
<ul style="list-style-type: none">• With modeling and support,<ul style="list-style-type: none">◦ access prior knowledge and experiences to identify connections between words and their application to real life◦ develop prior knowledge and vocabulary through hands-on experiences and by exposure to a variety of literary and informational narrative and expository texts reflecting a wide range of cultures		

LANGUAGE

L6 CCR Anchor Standard

Acquire and use accurately a range of general academic and domain-specific words and phrases sufficient for reading, writing, speaking, and listening at the college and career readiness level; demonstrate independence in gathering vocabulary knowledge when encountering an unknown term important to comprehension or expression.

PK students:

L6 Use words and phrases acquired through conversation, being read to, and responding to text.

Essential Skills and Knowledge

- With modeling and support,
 - develop rich oral language through exposure to a wide variety of texts and hands-on experiences
 - participate in collaborative conversations with diverse peers about topics and text read aloud, written, or presented in other multimedia formats

READING INFORMATIONAL TEXT

Cluster: Key Ideas and Details		
RI1 CCR Anchor Standard		
Read closely to determine what the <u>braille</u> text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text.		
PK students:		
RI1 With modeling and support, answer questions about details in an informational text.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ listen to a wide variety of increasingly complex informational texts (a wide variety including expository and narrative structures and types, e.g., trade books, magazines, multimedia resources, functional texts such as recipes and labels related to personal interests and reflecting a wide variety of cultures) ◦ develop awareness of strategies that are used to monitor understanding before, during, and after reading, viewing, or listening to informational text ◦ before reading use prior knowledge and experiences to make connections to informational text ◦ before reading make predictions or ask questions about the text by examining the title, cover, <u>described</u> illustrations/photographs/text features/graphic aides ◦ during Interactive Read Alouds of informational text listen, ask and answer questions as appropriate ◦ after reading engage in conversations to facilitate recall of details in order to answer questions about the text ◦ after reading respond to text through discussions, dramatizing, drawing and/or developmentally appropriate writing including the use of <u>accessible</u> technology 		

READING INFORMATIONAL TEXT

Cluster: Key Ideas and Details

RI2 CCR Anchor Standard

Determine central ideas or themes of a braille text and analyze their development; summarize the key supporting details and ideas.

PK students:

RI2 With modeling and support, recall one or more detail(s) related to the main topic from an informational text.

Essential Skills and Knowledge

- With modeling and support,
 - listen to a wide variety of complex informational texts
 - use text and graphic features as sources to identify the main topic
 - participate in discussion about the main topic in order to recall one or more detail(s) from the text and to respond to questions about the topic and details

READING INFORMATIONAL TEXT

Cluster: Key Ideas and Details

RI3 CCR Anchor Standard

Analyze how and why individuals, events, and ideas develop and interact over the course of braille text.

PK students:

RI 3 With modeling and support, connect individuals, events, and pieces of information in text to life experiences.

Essential Skills and Knowledge

- With modeling and support,
 - access prior knowledge and experiences in order to identify and discuss how personal experiences, events and individuals in their own lives are similar and different from the text
 - begin to demonstrate an understanding of sequential order
 - determine and retell important ideas and messages in informational text
 - explain how someone might use the text

READING INFORMATIONAL TEXT

Cluster: Craft and Structure

RI4 CCR Anchor Standard

Interpret words and phrases as they are used in a braille text, including determining technical, connotative, and figurative meanings, and analyze how specific word choices shape meaning or tone.

PK students:

RI4 With modeling and support, answer questions about unknown words in a text.

Essential Skills and Knowledge

- With modeling and support,
 - activate prior knowledge and experiences to determine the meaning of unknown words
 - use text, description/tactile graphic of illustrations, graphic aides (e.g. print features, size of print, illustrations/photographs, drawings, maps, graphs and diagrams) to identify meaning of unknown words

READING INFORMATIONAL TEXT

Cluster: Craft and Structure

RI5 CCR Anchor Standard

Analyze the structure of braille texts, including how specific sentences, paragraphs, and larger portions of the text (e.g., a section, chapter, scene, or stanza) relate to each other and the whole.

PK students:		
RI5 With modeling and support identify the front cover, and back cover of a book.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ identify information appropriate for the front cover and back cover of a book ◦ demonstrate the proper use of a book ◦ (See MD PK CCSS RF1.a.) 		

Cluster: Craft and Structure

RI6 CCR Anchor Standard

Assess how point of view or purpose shapes the content and style of a braille text.

PK students:		
RI6 With modeling and support define the role of the author and illustrator/photographer in presenting the ideas or information in a text.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support identify the role of (and use the terms) authors and illustrators/photographers. 		

READING INFORMATIONAL TEXT

Cluster: Integration of Knowledge and Ideas

RI7 CCR Anchor Standard

Integrate and evaluate content presented in diverse accessible media and formats, including visually and quantitatively, as well as in words.*

PK students:

RI7 With modeling and support and verbal descriptions, tell how the illustrations/photographs support the text.

Essential Skills and Knowledge

- With modeling and support and descriptions,
 - describe the illustrations/photographs in an informational text
 - participate in discussions about the information derived from details in the illustrations/photographs in an informational text
 - participate in discussions about how these details contribute to the understanding of informational text

READING INFORMATIONAL TEXT

Cluster: Integration of Knowledge and Ideas

R18 CCR Anchor Standard

Delineate and evaluate the argument and specific claims in a braille text, including the validity of the reasoning as well as the relevance and sufficiency of the evidence.

PK students:

R18 With modeling and support identify the reasons an author gives to support points in a text.

Essential Skills and Knowledge

- With modeling and support,
 - recall details from a text
 - identify details that support a point in the text
 - answer questions about details in a text

READING INFORMATIONAL TEXT

Cluster: Integration of Knowledge and Ideas

RI9 CCR Anchor Standard

Analyze how two or more texts address similar themes or topics in order to build knowledge or to compare the approaches the authors take.

PK students:

RI9 With prompting and support, discuss similarities and differences between two texts on the same topic (i.e. in illustrations or descriptions).

Essential Skills and Knowledge

- With modeling and support,
 - listen to and discuss a variety of texts
 - identify the topic of a text
 - recognize texts that have the same topic
 - participate in discussions to identify the similarities and differences between two texts on the same topic

READING INFORMATIONAL TEXT

Topic/Cluster: Range of Reading and Level of Text Complexity		
RI10 CCR Anchor Standard		
Read and comprehend complex literary and informational <u>braille</u> texts independently and proficiently.		
PK students:		
RI10 Actively engage in group reading activities with purpose and understanding.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ develop comprehension skills by listening to a variety of appropriate increasingly complex informational texts (self selected and assigned) representing diverse cultures, perspectives, ethnicities, and time periods from a wide variety of types (expository and narrative: trade books, magazines, <u>accessible</u> multimedia resources, functional texts such as recipes and labels, etc.) ◦ use a variety of strategies to determine and clarify the meaning of unknown and multiple meaning words and phrases ◦ apply before, during and after reading strategies for a variety of informational texts. ◦ participate in collaborative conversations with peers about grade-level complex informational text

SPEAKING AND LISTENING

Cluster: Comprehension and Collaboration		
SL1 CCR Anchor Standard		
Prepare for and participate effectively in a range of conversations and collaborations with diverse partners, building on others' ideas and expressing their own clearly and persuasively.		
PK students:		
SL1 Participate in collaborative conversations with diverse partners about <i>pre-kindergarten topics and texts</i> with peers and adults in small and larger groups.		
SL1.a Follow agreed-upon rules for discussions (e.g., listening to others and taking turns, speaking about the topics and texts under discussion).		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ participate in a variety of group activities, large and small group (e.g. morning meetings, center time) ◦ follow basic rules for group discussions (e.g. raise hand, take turns, remain on topic, answer questions) ◦ learn about different cultural communication styles (including those represented in the classroom and school community) 		

SPEAKING AND LISTENING

PK students:		
SL1.b During scaffolded conversations, continue a conversation through multiple exchanges.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ participate in conversations with adults and peers ◦ stay on topic through multiple exchanges ◦ add appropriate ideas to support or extend the conversation ◦ contribute to a learning community (See MD SLM PK-1 5A2.a.) ◦ follow two- or three-step directions 		

Cluster: Comprehension and Collaboration		
SL2 CCR Anchor Standard		
Integrate and evaluate information presented in diverse media and <u>accessible</u> formats, including visually, quantitatively, and orally.		
PK students:		
SL2 Confirm understanding of text read aloud or information presented orally or through other media by asking and answering questions about key details with modeling and support.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ ask and answer questions (who, what, where) ◦ keep questions and responses on task/topic ◦ become aware of Media Literacy 		

SPEAKING AND LISTENING

Cluster: Comprehension and Collaboration		
SL3 CCR Anchor Standard		
Evaluate a speaker’s point of view, reasoning, and use of evidence and rhetoric.		
PK students:		
SL3 Ask and answer questions in order to seek help, get information, or clarify something that is not understood.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ connect prior knowledge to new learning ◦ demonstrate ability to formulate questions targeted to specific need ◦ demonstrate ability to take risks during discussions 		

SPEAKING AND LISTENING

Cluster: Presentation of Knowledge and Ideas

SL4 CCR Anchor Standard

Present information, findings, and supporting evidence such that listeners can follow the line of reasoning and the organization, development, and style are appropriate to task, purpose, and audience.

PK students:

SL4 Describe familiar people, places, things, and events with modeling and support.

Essential Skills and Knowledge

- With modeling and support,
 - connect to personal/prior knowledge and experiences
 - speak clearly enough to be heard and understood
 - share multiple ideas on a single familiar topic
 - organize information in order to express themselves succinctly and filter what is appropriate to share with others (MD SLM PK-1 3)

SPEAKING AND LISTENING

Cluster: Presentation of Knowledge and Ideas		
SL5 CCR Anchor Standard		
Make strategic use of <u>accessible</u> digital media and visual <u>tactile</u> displays of data to express information and enhance understanding of presentations.		
PK students:		
SL5 Add <u>tactile</u> drawings or visual displays to descriptions as desired to provide additional detail.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ choose appropriate visuals (<u>e.g. real objects</u>) to match oral presentations ◦ use available <u>accessible</u> technology appropriately to display ideas ◦ organize information for oral delivery (MD SLM PK-1 3) 		

SPEAKING AND LISTENING

Cluster: Presentation of Knowledge and Ideas		
SL6 CCR Anchor Standard		
Adapt speech to a variety of contexts and communicative tasks, demonstrating command of formal English when indicated or appropriate.		
PK students:		
SL6 With modeling and support, speak audibly and express thoughts, feelings, and ideas clearly.		
Essential Skills and Knowledge		
<ul style="list-style-type: none"> • With modeling and support, <ul style="list-style-type: none"> ◦ speak clearly enough to be heard and understood in a variety of settings ◦ communicate effectively in a variety of situations with different audiences, purposes, and formats ◦ use props in situations, such as show-and-tell ◦ produce and expand complete sentences in shared language activities 		

SPEAKING AND LISTENING

Cluster: Comprehension and Collaboration

Appendix B: Acronyms and Definitions

This document contains acronyms and terms and their definitions, which are often used within the field of education of students who are blind or visually impaired. While not all of the acronyms and terms are found in the Maryland Common Core State Curriculum Frameworks for Braille, they may be encountered as the Frameworks are implemented.

Accessible media refers to books, hardware, and software that are able to be readily used by a person with a disability. Accessible media must not create barriers to the use of accessibility options, tools, or devices.

Accessible digital/electronic reference materials are reference materials that have audio or braille output for all menus, screens, and have keyboard accessibility. Accessible digital/electronic reference materials can be stand-alone devices or built into another device, i.e., The Franklin Special Education Speaking Language Master is a stand-alone dictionary/thesaurus with a QWERTY keyboard that provides speech output and access to all menus and screens. The Braille Apex is an electronic braille notetaker with both output in speech and a refreshable braille display and input via a braille keyboard. The Apex includes a dictionary and thesaurus. Some reference materials on the internet are accessible with the use of software/hardware, while others are not.

Braille Authority of North America (BANA) is an organization comprised of one representative from each of the many member organizations in the field of blindness that serves on the BANA Board. The BANA's purpose is to promote and facilitate the use, teaching, and production of braille. The BANA publishes rules, interprets and renders opinions pertaining to braille in all existing and future codes. The BANA deals with codes now in existence or to be developed in the future, in collaboration with other countries using English braille. BANA works largely through committees composed of braille transcribers, braille readers, education and rehabilitation professionals, and Board Members. More information can be found at: <http://www.brailleauthority.org>

Braille embosser is a printer, that when connected to a computer or electronic braille notetaker, can print hardcopy braille documents that have been translated into braille.

Braille translation software translates and formats documents into braille. Braille translation software requires the user to have knowledge of braille codes and formats to ensure accuracy.

Braillewriter is a manual or electric device used to write braille.

Certified braille transcriber transcribes print materials into braille versions. After completing coursework and tests, a person can become certified as a transcriber in literary braille through the National Library Service for the Blind and Physically Handicapped (NLS). NLS offers additional certification for literary certified transcribers in the Nemeth Code for Mathematics and Science and Music braille. More information can be found at: http://www.nfb.org/nfb/Braille_Certification.asp

Appendix B: Acronyms and Definitions

Clusters are statements within a domain in the Maryland Common Core State Curriculum Frameworks. Clusters are focused but still broad and not measurable.

Code for Computer Braille Notation is used for precise notation to indicate information to the braille readers such as website addresses, hyperlinks, keyboard commands, and various computer code languages.

Contracted braille is using contractions when writing words and sentences in braille. Braille has 186 contractions for words and parts of words that can be used according to the braille rules.

Curriculum is the instructional program(s) used to meet standards that consists of activities, lessons, and instructional materials, tools/strategies.

Electronic braille notetaker is a portable device for producing braille. Electronic braille notetakers typically have some ability to edit and save writing. Many have more advanced features such as word processing, spreadsheets, calculators, calendars, task lists, Global Positioning Systems (GPS) software, book readers, and internet and email access. All electronic braille notetakers have speech output and can either have keys for braille input for a QWERTY keyboard. Some can produce braille directly, while others need to be connected to a braille embosser for braille output. Some have a “refreshable braille display,” a line of braille cells with pins that continually refresh to display in braille the current line in a document or a menu.

Functional Vision Assessment is an assessment conducted by a teacher of the blind and visually impaired to evaluate a student's performance of tasks in a variety of environments requiring the use of both near and distance vision.

Hand Movements used for braille reading vary. Use of either the left or right hand alone is the least efficient method. Using two hands together in a *parallel* method is when one hand tracks the lines of braille to read while the other hands holds the place on the line. The *split* method of hand movements is when both hands are together, the right hand tracks the line of braille across the page to read and the left hand follows along and then returns to locate the next line. The most proficient method for reading is the **scissors** method where both hands are reading independently of one another.

IEP is an Individualized Education Program for a student with a disability that specifies the placement, services, goals/objectives, program supports, and accommodations required as part of the child's educational program.

Appendix B: Acronyms and Definitions

IRC is the Maryland Instructional Resource Center for Students with Visual Impairments is funded by the Maryland State Department of Education (MSDE) and housed at the Maryland School for the Blind (MSB). The MIRC serves as a lending library and purchasing facility for all large print and braille textbooks for Local School Systems (LSSs). The MIRC is also the American Printing House for the Blind Ex Officio Trustee and thus maintains a registry of all blind students in Maryland, manages the Federal Quota funds, and purchases instructional materials for qualifying students in Maryland.

Learning Media Assessment is an assessment by a teacher of the blind and visually impaired to determine a student's most appropriate medium for learning. Learning media can include regular print, regular print with optical devices, large print, braille, use of electronic magnification systems, auditory, tactile symbols, pictures, real objects, or a combination of these media.

Local School Systems (LSSs) are the public school systems in the twenty four counties in Maryland.

Maryland Common Core Curriculum State Frameworks are Maryland's curriculum based upon the National Common Core State Standards which were adopted by the Maryland State Board on June 22, 2010.

National Braille Association (NBA) is a non-profit organization dedicated to providing continuing education to those who prepare braille. More information can be found at:

<http://nationalbraille.org/>

National Common Core State Standards (NCCSS) are educational standards developed in collaboration with teachers, school administrators, and experts, to provide a clear and consistent framework to prepare students for college and the workforce. The creation of the NCCSS was a state-led initiative coordinated by the National Governors Association Center for Educational Practices (NGA Center) and the Council of Chief State School Officers (CCSSO) to ensure all students across the United States are prepared to compete globally.

Orientation and Mobility (O&M) Specialist is a trained professional that provides services to students who are blind or visually impaired to enable orientation to and safe movement within their environments in school, home, and community. O&M Specialists teach students skills in use of existing vision, spatial and environmental concepts, use of distance low vision devices, and the use of the long cane for safe travel.

Signs refer to the characters in print. For example, two horizontal lines above and below each other represent the print mathematical sign for equals =.

Appendix B: Acronyms and Definitions

Slate and stylus is a small, portable device for writing braille. Braille dots are embossed on paper within the slate by using a stylus with a pointed tip.

Standards are measurable statements about what students should know and be able to do. Standards define the knowledge and skills students should have within their Pre-K through grade 12 education careers so that they will graduate high school able to succeed in entry-level, credit-bearing academic college courses, in workforce training programs or in a career.

Symbols are characters in braille. For example, dots 4,6 then dots 1,3 represent the symbol for the mathematical print sign for equals =.

Tactile graphics are raised pictures/images to convey non-textual information such as maps, graphs, and diagrams. Tactile graphics have labels in braille. Tactile graphics guidelines are followed to determine if an image should be created and if so, how. Some images are not necessary and can be omitted. Some images are substituted with letters, abbreviations, or words.

Tactile drawing tools are used to create raised pictures/images. These can include a spur wheel, stylus, wax, and other embossing tools.

Teacher of the Blind and Visually Impaired (TBVI) is a professional who provides special education services to students who are blind or visually impaired. TBVIs must meet Maryland teacher certification requirements in the area of vision by completing required coursework and meeting specified requirements. TBVIs perform assessments, and develop and implement Individual Education Programs (IEPs) or Individualized Family Service Plans (IFSPs) for children and youth birth through 21.

Uncontracted braille is the use of only letters of the alphabet when writing words and sentences.

Appendix C: Resources

Appendix E: Tactile Editing Marks

The chart below shows tactile editing marks that can be used with a young braille reader for editing on a draft writing that is produced in hardcopy braille.

"Tactile editing marks are not a practical option for pieces that include a large number of mechanical and content errors. By the time children are in second or third grade, they should be using technology (note taker and/or computer with a screen reader) for their writing. Revising and editing on the braille are labor-intensive because changes are cumbersome to make and so much rewriting is involved. We want to make the writing process as easy as possible, so our young braille readers can focus on their message and retain their motivation for writing."

--Anna Swenson

Correction	Visual Symbol	Tactile Symbol	Comments
Capital letter			Place a cutout square of graphic arts tape or gummed paper; or braille a full cell or dot 6 over or under the letter needing the capital.
Punctuation marks	. ? ! ,		Use circle stickers with the correct punctuation brailled next to or on the circle; or braille directly on the draft.
New paragraph			Use a gummed star.
Correct spelling		 (file folder label)	Braille the correct spelling of the word on a file folder label and then affix it to the paper directly on top of the misspelled word or in the line above or under the word.
Space needed		 (Graphic arts tape)	Use a narrow strip of graphic arts tape to indicate the need for a space.
Insert		 (Graphic arts tape)	Use graphic arts tape cut a bit wider to indicate where an insert should go; braille the material to be inserted in the space between the lines next to the strip of tape.
Cross out		 (piece of masking tape)	Place masking tape either directly over the words to be omitted or directly below or above the words (so that the student can see what he or she needs to omit).
